Phenomenal Aire

Cold Plasma Generator Technology

Phenomenal Aire Improves Indoor Air Quality and Cleans Naturally and Safely.

Phenomenal Aire's cold plasma generator technology can offer the same feeling you get when hiking on a high mountain trail or strolling along the ocean shore... without ever leaving the house.

The Truth about Indoor Aire Quality According to the US Environmental Protection Agency (EPA), the air inside our homes is often two to five times more polluted than the outside air. On average we spend 90% of our time indoors. The air we breathe is filled with pathogens, odors, mold and fungus spores.

How Phenomenal Aire Works Phenomenal Aire creates a plasma field within a home's HVAC system. As air flows through the field molecules are charged, creating ions. These positive and negative ions then naturally scrub the passing air. The ions then travel on into the living space, where they safely kill mold, viruses & bacteria.

Removes Odor Odors and VOCs enter the Plasma Field and are broken down into simple molecules like Nitrogen, Carbon Dioxide, Hydrogen, H2O, Water Vapor & Oxygen.
